Question: Q26: Match the following: Input Device, Storage Device, Processing Device, and Output Device.

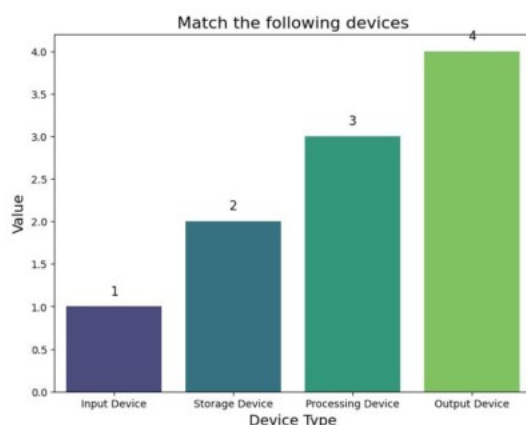

Image URL saved to DynamoDB: 200

Options: ['Option A: Touchscreen, Hard Disk, CPU, Monitor', 'Option B: Keyboard, RAM, GPU, Printer', 'Option C: Mouse, SSD, Motherboard, Speakers', 'Option D: Scanner, Webcam, Network Card, Modem']

Answer: Option A: Touchscreen, Hard Disk, CPU, Monitor ✓

Explanation: The teacher explains each of these with examples, such as a touchscreen is an input device, a hard disk is a storage device, a CPU is a processing unit, and a monitor is an output device.

---

Question: Q27: What was the reason given for the declaration of Emergency in India by the Indira Gandhi government on 25th June 1975?

#### Reason for Emergency

The Indira Gandhi government declared a state of Emergency in India on 25th June 1975, citing threats to national security, unity, and economic stability. The official reasons given were internal disturbances, imminent danger from right-wing groups, and the need to maintain law and order.

Image URL saved to DynamoDB: 200

Options: ['Option A: External Aggression', 'Option B: Internal Disturbance', 'Option C: Financial Crisis', 'Option D: Threat of Secession'] ▼

Answer: Option B: Internal Disturbance ✓

Explanation: The teacher mentions that it was declared citing internal disturbance, although the original Constitution allowed it only for armed rebellion or external aggression.

---

Question: Q28: Due to the gravitational pull of which celestial body do tides occur on Earth?

Image URL saved to DynamoDB: 200

Options: ['Option A: Sun', 'Option B: Moon', 'Option C: Both Sun and Moon', 'Option D: None of the above'] ▼

Answer: Option C: Both Sun and Moon ✓

Explanation: The teacher explains this concept using a model, showing that while the Moon is the primary cause of tides, the Sun's gravitational pull also plays a significant role.
